Budget Advisory Committee

Fiscal Year 2016/2017 Budget Recommendations

Presented at Deliberative Session — February 4th, 2016

Overview

The Milford School Budget Advisory Committee (SBAC) has reviewed and deliberated each area of the School Administration proposed operating budget for Fiscal Year 16/17 of \$40, 325,173 or an increase of \$1,921,696 or 5% over the Fiscal 15/16 approved budget and a tax impact of 10.31%.

The SBAC members have met with the School Board, SAU Staff and individual school or program administrators during this process to obtain an understanding of the operation, wants, and collective needs of the district. The SBAC considered these factors in context with many other factors including: achievement of the educational goals of the community, perceived taxpayer ability to fund, published district and state guidelines, as well as enrollment trends of the District

- There has been a reduction of 466 students or -15.74% since the 2010/2011 school year.

- There has been a reduction in revenue of \$2,890,737 or -19.30% since the 2010/2011 school year.
- There has been an increase of over \$7 million or 22.16% since 2010/2011 school year

After careful review, deliberation and consideration the SBAC recommends an Operating Budget increase of \$919,468 or 2.39% over the current year's appropriation for a recommended Operating Budget for the 16/17 School Year for a total budget of \$39,322,945. Although this recommended operating budget is \$320,478 or 0.81% less than the School Board's proposed budget the SBAC believes it strikes the proper balance between achieving the educational mission and respecting the taxpayers needs.
